

Advanced Tool & Supply Electric Skid Flushing & Testing Unit

- ❖ Electric Flushing & Testing Unit
- ❖ Flow rate 8GPM @ 15,000psi/11GPM @10,000psi
- ❖ Pressure testing capabilities up to 15,000psi
- ❖ Single block (6) port discharge manifold/(6) port return manifold

Advanced Tool & Supply's(ATS) Electric Skid Flushing and Testing Units are suitable for hydraulic pressure testing, fluid circulation, filtration, and chemical injection just as our air driven units. ATS's electric unit allows operators the option for air driven or electric when working offshore or land base. ATS's technicians are certified in NAS 1638 & 4059E and carry up-to-date certificates.
